

Bond Calculator short cut set-up for Apple iPhones or iPads

The following steps will assist you to add the Bond Calculator to the home screen of an Apple iPhone or iPad. This will give the Bond Calculator the functionality of an app and create a direct shortcut on the home page of any of these devices.

Step 1:

Load the Bond Calculator url (website address) onto the iPhone or iPad browser.

The Bond Calculator landing page will appear in your browser.

Example:

<http://www.lawfirm.bondcalculatoronline.co.za/>
(*Replace *lawfirm* in the URL with the name of the firm)

Step 2:

Click on the "Export" icon left of the browser window. A new window will appear.

Step 3:

Click on the Add to Home Screen icon at the top right of the window.

Step 4:

Return to the home screen of the iPhone or iPad to check if the shortcut has been added to your Home Screen.
